2. PURPOSE AND BACKGROUND

The purpose of this Agreement is to formally document a genuine assistance arrangement concerning participation in the AGN 100x Project.

The Parties acknowledge that the Assisted Participant may have experienced difficulties independently completing the cryptocurrency deposit process because of insufficient technical knowledge, limited experience with cryptocurrency, lack of access to appropriate technology, language difficulties, or other practical circumstances.

Consequently, the Assisting Person provided practical, technical, or financial assistance, as applicable, to facilitate a cryptocurrency deposit attributed to the Assisted Participant.

The Parties acknowledge that the transaction may have been executed through a cryptocurrency wallet owned or controlled by the Assisting Person rather than through a unique wallet belonging to the Assisted Participant.

The Parties enter into this Agreement to accurately document the circumstances, establish the nature of the assistance provided, and confirm the identity and intentions of the individuals involved.

3. DECLARATION OF GENUINE PARTICIPATION

The Assisted Participant declares that:

1. They are a real, identifiable individual.
2. They voluntarily agreed to participate in the AGN 100x Project.
3. Their personal identity was not used without their knowledge or consent.
4. Their participation was not established solely to create an artificial or fictitious network position.
5. They understood that their participation could potentially create referral-reward eligibility for their upline, subject to AGN's applicable rules.
6. Their participation and the circumstances of the deposit are accurately described in this Agreement.

The Assisting Person confirms that they did not knowingly create a fictitious participant, impersonate another person, or register the Assisted Participant without appropriate authorization.

4. NATURE AND REASON FOR ASSISTANCE

The Assisted Participant confirms that assistance was requested or accepted for one or more of the following reasons:

- Insufficient knowledge of cryptocurrency transactions.
- Difficulty creating or operating a personal cryptocurrency wallet.
- Limited access to suitable technology or cryptocurrency services.

- The Assisted Participant supplied the funds and the Assisting Person facilitated the transfer.

The Parties agree that the transaction's actual source of funds and any financial obligations must be accurately disclosed whenever legitimately required for verification or compliance.

Use of the Assisting Person's wallet shall not, by itself, be treated as proof of ownership of the funds by either Party.

The Parties identify the transaction covered by this Agreement as follows:

Cryptocurrency: USDC

Blockchain/network: Ethereum ERC-20

Amount transferred: _____ USDC

Transaction date: _____

This declaration is based on the actual knowledge and intentions of the Parties and shall not be interpreted as independently establishing regulatory compliance.

The Assisting Person agrees to provide truthful information concerning their involvement and, where reasonably required and legally appropriate, assist in verifying the transaction.

The Assisted Participant agrees to confirm their identity, acknowledge their actual participation, and provide truthful information regarding their authorization and funding arrangement.

Both Parties agree to cooperate with legitimate requests for clarification from AGN, relevant financial institutions, or competent authorities, subject to applicable laws.
